Experience

Zataca Systems / Junior Frontend Developer

March 2020 - June 2020

I participated in the engineering of various front-end solutions as well as diverse layout implementations.

- Javascript, Vue.js
- CSS, Git

Cicass79 / Frontend Developer

June 2022 - June 2023

While being in charge of the frontend, I developed some industrial web solutions in an english speaking team, taking care of the heavy logic as well as creating the layouts.

- React.js, Typescript
 - MaterialUI, Bitbucket, Syncfusion, Wijmo
-

Education

Certificate of Higher Education (HCN) in Development of Web Applications

IES Paco Mollá, Petrer

About me

Meticulous web developer, really interested in clean code practices and fullstack development. Trying to be DRY and SOLID.

I consider myself a proactive, hard working person with initiative and good communication skills.

Languages: Native spanish and fluent english.
